Ganei Tikva, Israel

SUMMARY

Full-stack developer building production applications with React, TypeScript, TanStack Router, and Vite on the frontend, and Kotlin/Java services on the backend. Comfortable across the stack — PostgreSQL, Apache Solr, Kubernetes/Helm environments, and CI/CD workflows.

EXPERIENCE

Full Stack Developer

08/2025 - Present

Voyager Labs

- Frontend developer on a social media intelligence platform, building features end-to-end with React 19, TypeScript, TanStack Router/Query, Vite, and Mantine.
- Regularly take on backend bug-fixing in Kotlin/Java services for cross-stack issues.
- Use AI-assisted tooling (Claude Code) day-to-day for prototyping, codebase navigation, and rapid iteration; verify outputs against existing patterns and steer toward production-quality code.
- Active code reviewer with structured feedback on type safety and code reuse; comfortable debugging local Kubernetes / Helm environment issues; collaborate with product and design on feature scoping.

Full Stack Developer

Tel Aviv-Yafo, Israel

IZer

11/2023 - 07/2025

- Built core features end-to-end for a B2B web tool serving local store operations — order management, inter-store order forwarding, attendance tracking, salary calculations, a dynamic calendar, and real-time chat and notifications via WebSockets.
- Frontend in Next.js, TypeScript, React, and Ant Design; backend in PHP/Laravel with Sail Docker for local development. Owned features end-to-end from design through deployment.
- Worked on a two-person development team — direct ownership of features, fast iteration, and close collaboration with the client on requirements.

Full Stack Developer

06/2021 - 12/2021

OMEK - Startup

- Designed and implemented a component library for a proof of concept, advancing the company's smart reading system powered by NLP.
- Collaborated on a shared Git project with 2 team members.

QA Automation Engineer

11/2018 - 03/2020

Israel Defense Forces

- Developed and executed end-to-end automation scripts for React-based web applications using JavaScript and TestCafe.
- Advocated and implemented advanced testing processes, enhancing automation coverage and reliability.

EDUCATION

Bachelor's Degree in Computer Science

Qiryat Ono, Israel

Ono Academic College

02/2022 - 04/2025

Full Stack Web Development Course

Rishon LeZiyyon, Israel

Kernelios

01/2021 - 05/2021

- Completed 447 hours mastering JavaScript, React, Node.js, MongoDB, HTML, and CSS

Computer Science Diploma

Qiryat Ono, Israel

Ben Zvi High School

09/2014 - 06/2017

- Focused on Java and data systems

SKILLS

CSS, Docker, Frontend, Git, GitHub, HTML, Java, JavaScript, Laravel, MongoDB, Next.js, Node, Node.js, PHP, React.js, Sockets, Testcafe, Typescript, Kubernetes, Helm, Vuex, Websockets, Backend, Mantine, TanStack Query

LANGUAGES

Hebrew (Native)

English (Proficient)
